"P.M. David Silva & Sons was established in 1945 during the Plantation Raj in Ceylon's world famous Dimbula Valley, Sri Lanka. The business and the family soon expanded to become a specialist Tea Transporter and Plantation Supplier. Today, three generations on, we remain a family company bringing the world's most sought after teas that are hand plucked and ethically sourced from the very people and estates that we have worked with."

Teas

Apple & cinnamon tea - An irresistible combination of high grown black tea married in with real Apple pieces and true Ceylon Cinnamon bark.

Milk Oolong - Created on the misty slopes of Taiwan, Milk Oolong is a unique product of nature. Holding a dense, creamy aroma and a warm, seductive sweetness; Milk Oolong is a tea for those wanting to try something truly original.

Roast Oolong - A tea that many coffee drinkers like is roasted oolong. It shares some similar characteristics with coffee, such as nuttiness & a rich body.

Planters Breakfast - The tea has an excellent balance: bold and brisk, it possesses a fantastic colour in cup and the strength to get you going at any time of the day.

Planters Afternoon - Light and crisp with a floral finish, Planters' Afternoon is a favourite for afternoon tea lovers and fine food critics. Using selected estates, Planters' Afternoon is the perfect accompaniment to sweet tasting afternoon treats or for unwinding after a long day's work

Planters Decaffeinated - Our Planters' Decaffeinated Tea lacks the caffeine but boasts an exquisite flavour.

Planters Earl grey - We have taken this cherished tea back to its roots. At PMD we have selected a high quality low grown tea and married it with natural bergamot oil; creating you a heavenly aromatic experience whilst finishing with smooth, citrus notes.

Planters green tea - The unique climate and soil conditions coupled with ozone friendly planting practices ensure that this tea leaves the palate fresh and clean.

Darjeeling 1st flush okayti - The taste of Darjeeling varies with the seasons or harvest periods. The first flush or springtime tea, is harvested from late February to mid-April. The young leaves yield a light tea with a flavour of green Muscat. Our Okayti Estate Darjeeling is a prized first flush tea.

Cinnamon Chai - The marriage of quality high grown Pekoe and indigenous Sri Lankan spices produce an exceptional tea with piquancy. The tea's sumptuous, spicy notes entice the palate whilst finishing with the sweet, smoothness of Cinnamon. Chai Cinnamon is the ideal drink for those chilly winter evenings.
